

Sexually Transmitted Infections

Why bother?

Supporting the HIV, Viral Hepatitis and Sexual Health Workforce

Date Friday 9th March 2012
Venue Grace Vaughan House,
227 Stubbs Terrace, Shenton Park WA
Time 1.30pm – 4.30pm

STI Identification and management in primary care settings.

This 4 hour practical workshop will cover current STI epidemiology in WA and provide practical strategies for raising sexual health issues and opportunistic screening in primary care settings. In addition to this the workshop will utilise interactive case studies which both allow participants to increase their confidence in STI identification and management but also provide participants an opportunity to share their knowledge and experiences in sexual health.

This practical workshop will:

- Provide current STI epidemiology in WA
- Provide practical strategies for raising sexual health issues and opportunistic screening
- Use interactive case studies to share knowledge and experiences in sexual health

This is a FREE course - afternoon tea will be provided.

This workshop has been designed for Practice Nurses, General Practitioners and Allied Health Workers.
